Jonty

Design: Simon Pengelly

Jonty

Design: Simon Pengelly

“Quietness, possibly above all else, is a quality all the best products possess, in that they don’t follow a trend; rather they exhibit a character born of thoughtful regard for function, material, environment, intuitiveness and familiarity... without the need to shout. There are few things more interesting and more exciting to us than being able to make our mark with quiet design.”

Simon Pengelly

Guild Mark**

Design Guild Mark Award 2013

Jonty chairs

Jonty is a stacking chair, high stool and table collection, light, robust, well thought through and intended primarily for cafes, restaurants and other hospitality areas.

Jonty stools

Frames are natural solid beech or can be solid colour lacquered to match the seats and backs, which are injection moulded polypropylene and available in five colours. The combination of natural timber and coloured plastic is interesting, elegant and practical and Jonty possesses a retrospective yet subtle aesthetic with excellent comfort.

Jonty stools with Diabolo table

Jonty tables

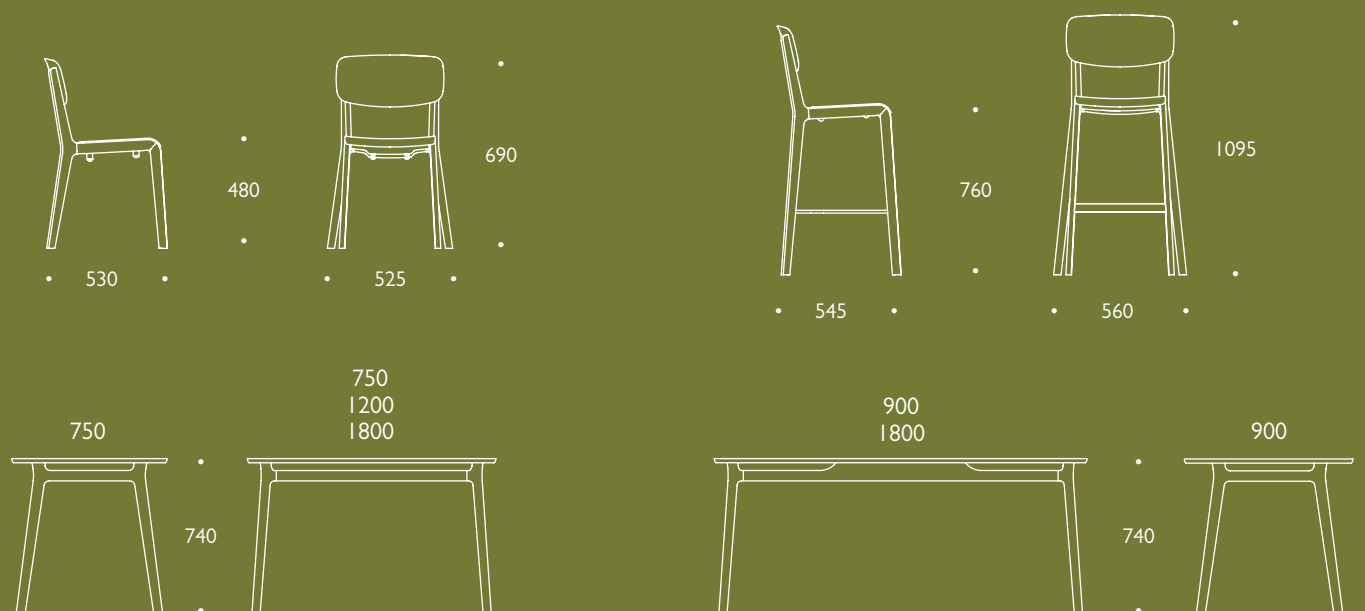

The complementary Jonty tables are available with square or rectangular tops and in five sizes. Exposed plywood edges, are clear lacquered, having a subtle cut-back convex profile. Tops are beech veneer or white laminate as standard. As with the chairs, frames and top edges can be solid colour lacquered.

The collection

Chorus is a young company, working with a small group of renowned and talented designers, developing a collection of contemporary contract furniture designs. These designs find their application in the corporate, leisure, educational and hospitality sectors.
